### Colleges Adjust Requirements and Deadlines in Response to COVID-19

In the face of COVID-19, Washington's colleges and universities are being flexible about course requirements, test scores, deadlines, and more. [Contact admissions offices](#) directly if you have special circumstances or questions about how to meet requirements and deadlines during COVID-19.

- Some colleges are [modifying admissions requirements](#):
  - Many colleges have extended the deadline to officially decide where you plan to enroll. Many have also extended the deadline to make deposits.
  - Some campuses have gone test-optional, meaning you do not have to submit scores from standardized tests like SAT and ACT.
- If someone in your family has lost a job or is working less, colleges may be able to provide more financial aid:
  - If you've already filed a 2020-21 FAFSA or WASFA, talk to the financial aid office about your situation.
  - If you haven't applied for financial aid, it's not too late. [Submit your application](#), then follow up with the college.
- Many colleges are offering [virtual campus tours](#) you can do online from home.
- Remember, [it's not too late to apply!](#) Many of Washington's four-year public and private, not-for-profit colleges and universities are still accepting applications for fall 2020.

## ENGLISH

Students who have applied to WCC, who have a Student ID Number and access to their [MyWCC](#) student portal can still do the [Informed Self Placement for English here](#).

- This document provides descriptions of each English Course offered
- Students will simply choose a class and email me ([cgreen@whatcom.edu](mailto:cgreen@whatcom.edu)) with that choice and I will enter their placement choice manually

## MATH

Because we can no longer host on-campus proctored Math Placement Tests at this time, [students can work directly with me to select](#) a Math Placement.

- The philosophy right now is to simplify the process for students, and to provide them with the autonomy to make a good choice.
  - § Students who have applied to WCC, who have a Student ID Number and access to their [MyWCC](#) student portal may want to take a *PRACTICE ALEKS* Math Placement Test *independently from home* for their own understanding of their math abilities, and how they align with WCC math courses.
  - § Students can also use the attached document titled [Math Placement via Transcripts All High Schools](#) to see what course their most recent grade in their most recent math class places them into.
  - § Students can also use the attached document titled [Math Course Descriptions](#) to get a sense of what each math class at WCC entails, and make a decision based on that information.
- With one/a combination of the three measure above, students must simply email me ([cgreen@whatcom.edu](mailto:cgreen@whatcom.edu)) with their Math Placement choice and I will enter their placement manually
- If students are unsure about what course would be the best fit for them, I can help them use the tools attached to make a strong choice. We can connect via EMAIL, PHONE, or ZOOM
