

MHS SPRING 2020 WEEKLY SCHEDULE

To provide more structure and help support students in their new learning, MHS will provide two new components of remote learning beginning May 4th and continuing through June 19th.

The **first** will be established class periods where students can interact with their classmates and teacher. Two classes will be offered on Tuesday, Wednesday, and Thursday. The format will not include any new teaching but teachers are prepared to answer questions about the work provided. It may look similar to a closed T3 session where the teacher offered specific support based on a particular class or topic.

The **second** will be established office hours. Students will be able to connect with their teacher, ask questions, or get help on work that was assigned. This format may look similar to an open T3 session as students from various classes might interact during that same time.

Questions do come up at times other than the class period and office hours. Teachers will continue answer those questions through google classroom, email, and/or phone calls. These structured times, however, allow you to schedule your time to get more immediate support and may help organize when you do work for each of your classes.

In addition to responding to students, MHS teaching staff will be planning and preparing learning plans, collaborating with other staff, assessing student work, communicating with families, attending building staff meetings and engaging in professional development.
